

Acceptance into the Off the Track WA (OTTWA) Retraining Program is always at the discretion of Racing and Wagering Western Australia (RWWA). Accepted horses will be listed on the *OTTWA Retraining Online Platform* for a minimum of 30 days for an OTTWA Network Retrainer (NR) to select, after which they will become eligible to enter the OTTWA Estate Retraining Pathway (ERP). Please ensure all information provided by the racing ownership group/trainer is accurate and complete, and that all disclosures are made honestly in the interest of participant safety and horse welfare.

SECTION D - TERMS AND CONDITIONS

Application Approval

- A completed application must be submitted to animalwelfare@rwwa.com.au. Following review of the application, you will be advised in writing of the outcome of your application within 5 business days.
- Acceptance into the program is always at the discretion of RWWA.
- Owners must claim an OTTWA Passport, with the passport number entered on the application.
- RWWA reserves the right to request further information about a horse prior to acceptance.
- RWWA may recommend the horse as likely to be more suitable for an alternative rehoming pathway.

Program Pathways

Subject to application approval:

- All horses will be made available on the *OTTWA Retraining Online Platform* for selection by an OTTWA Network Retrainer (NR).
- Horses which have not been selected by an NR will be eligible for the OTTWA Estate Retraining Pathway (ERP) after a minimum of 30 days and subject to ERP capacity.
- Where the ERP is at capacity, a waitlist will be maintained. Owners may pursue alternative retraining or rehoming opportunities while on the waitlist; however, RWWA must be notified should the horse be rehomed by an alternative pathway.

Ownership

- Acceptance into the OTTWA Retraining Program does not include automatic transfer of ownership. Horses will continue to be managed by their current owner throughout their retraining process, unless mutually agreed by all parties.
 - (i) Horses selected by an NR may have ownership transferred, by mutual agreement, to the NR.
 - (ii) Horses selected by the ERP will not have ownership transferred to RWWA.
 - (iii) Horses that have previously been transferred from the last owner/ownership group to a third party (other than the last trainer) are not eligible for the OTTWA Retraining Program.
 - (iv) The last owner/ownership group, or the person in control of the horse at the relevant time, must meet all obligations for the management of retirement as per the Rules of Racing Local Rule of Retirement LR313 (Thoroughbred) or LR96B (Harness).

General OTTWA Retraining Program T&C's

To be eligible for acceptance into the OTTWA Retraining Program, horses must:

- Have been foaled in WA or domiciled under the care of a licensed WA trainer in the last 12 months.
- Raced, trialled, or been in race work with a registered WA trainer in the last 12 months.
- Be deregistered for racing.
- Be sound, with a veterinary certificate (\$200 OTTWA Veterinary Rebate provided for eligible applications) and declaration of suitability for the OTTWA Retraining Program provided at the expense of last managing owner(s) (as per the application process).
- Have had, as a minimum, basic groundwork and handling, if the horse has not commenced race preparation at all.
- Be of suitable temperament for education and training for equestrian activities.
- Be in good condition (minimum Body Condition Score (BCS) 2 out of 5), with up-to-date routine health management (teeth/deworming/vaccinations) and farrier work undertaken. Horses are not required to be shod; however feet should be in good, tidy condition if unshod.
- Have no untreated or unresolved medical or musculoskeletal conditions (unless certified by veterinarian).
- Not be entire – colts/stallions are to be gelded and be recovered from the procedure (minimum 6 weeks).
- Have been spelled/let down for a period of at least 4 weeks prior to entering the OTTWA Retraining Program.

Horses which will **not** be considered for acceptance into the OTTWA Retraining Program:

- Thoroughbred or Standardbred horses which have not been bred for the purposes of racing.
- Mares or stallions which have been used for breeding and have subsequently been retired, with the exception of cases with extenuating circumstances (infertility), which will be considered at RWWA's discretion.
- Horses which have previously exited the racing industry into a home within the equestrian community.
- Horses which have been identified as having particularly challenging behaviours, and which most competent retrainers would find difficult to manage.

Upon acceptance into the OTTWA Retraining Program:

- No payment will be made by RWWA/NR to owners or trainers for horses entering the OTTWA Retraining Program.
- All relevant retirement from racing information must be completed, with horses' papers/ID card provided.
- All relevant health, injury or temperament issues (including stable vices) must be disclosed. Failure to accurately disclose a condition will result in the horse being returned immediately to the ownership group at their expense.
- Any decisions made by RWWA about the eligibility of a horse for the OTTWA Retraining Program will be at RWWA's discretion and will be final.

SECTION E - TRAINER/OWNER DECLARATION

I have read and understood the Terms and Conditions and declare that to the best of my knowledge the above information is a true and accurate description of the aforementioned horse, and I have made full disclosure in regard to any known health, injury or temperament issues that the horse may have.

I declare that I understand that making a false declaration constitutes a breach of the Australian Rules of Racing and may put persons working with, or purchasing the horse, at risk of injury.

I agree that ownership of the horse will remain with the last managing owner/ownership group unless otherwise agreed with the OTTWA Network Retrainer.

*I agree to be contacted by the OTTWA Network Retrainer or RWWA representative for OTTWA ERP for the purpose of coordinating the horse's admission to the OTTWA Program, including finalising contract details and other associated arrangements.

I understand the OTTWA Network Retrainer or RWWA representative for OTTWA ERP will provide notification regarding any health issues or training challenges for my horse in a timely manner. It will be my responsibility to determine the outcome for the horse, based on the information provided.

I authorise RWWA and/or its representatives to make decisions on the owner's behalf regarding the horse's immediate welfare needs, including authorising euthanasia where a veterinarian determines that euthanasia is necessary on welfare grounds, and where reasonable attempts to contact the owner or nominated secondary contact have been unsuccessful.

I acknowledge that if my horse is unable to be successfully retrained and/or rehomed within a reasonable timeframe (and subject to any agreement in place), I will arrange for the horse to be collected from the OTTWA Retraining Program at the expense of the ownership group.
